Care Sheet Olive - Olea europaea

Origin: Mediterranean

General info

Semi Hardy evergreen tree zone 8-11. Should be grown outside in spring summer and fall and inside in winter

Over Wintering

Bring in before first frost and place in window with partial to half day sun. Temperature should be 35-60f to induce fruiting in summer

Lighting

Outdoors half to full day sun

Watering

Water when the soil on the top of pot has started to dry out. When you water make sure you completely wet all the soil in the pot every time you water. Don't pour in a little water every day

Feeding

Spring thru early fall. You can use house plant or nursery fertilizers. Follow the label for rates and application times.

Training

Pinch back new growth to shape desired

Repotting

Every 2-3 years removing 1/3 of roots
