Care Sheet Pitcher Plants - Sarracenia

Origin: North America

General info

Hardy pitcher plants zone 8. Plant in pot with no drainage or keep sitting in saucer of water. Use rain water or distilled water no fertilizer

Over Wintering

Pitcher plant requires 3-4 months below 50 degree. Pitchers may turn brown but new growth will resume in spring. Pitcher can be brought inside in a cool place, or keep outdoors

This can be achieved by utilizing cold frames, window wells, enclosed unheated rooms, shed or garage with windows, or mulched beds. Still keeps plant sitting in water.
